

WORK IN ESTATES

Springlawn

In Autumn/Winter 2008 a needs analysis was carried out by the Community Development Worker in LCRL and the Community Development Worker in Acorn CDP. The Community Development Worker went door to door chatting to the residents about the estate and what the residents vision for the estate was. From this a Parent and Toddler Group was started in January 2009 and a Women's Development Course in September 2009. From this course a community development group developed which is still running. It is called the Springlawn Community Development Group.
